Senior SDET
Reporting to Senior Engineering Lead

Coinme is a leading digital currency exchange on a mission to make Web3 and cryptocurrency accessible to everyone. We provide innovative solutions to buy, sell, and manage crypto assets on our B2C platform and our B2B2C solution.

We're large enough to make a difference but small enough for your voice to have an impact. We are an organization where every person matters. You are part of the success of our business and that of our customers regardless of where you sit in our organization, a human touch in a digital world. At Coinme, we hire to support your growth and ours because "Together, we rise."

Position Description:
We are seeking a skilled and dedicated Software Development Engineer in Test (SDET) with a blend of strong technical expertise in Front End Web/Mobile applications and responsible for developing, implementing, and maintaining scripts and software to automate testing for web, and mobile applications.

What You'll Be Working On (Your Impact):
- Design, develop, and maintain automated test scripts for React Web applications using Selenium tool and Flutter mobile applications using BrowserStack or similar for Android & iOS platforms.
- Implement and optimize test frameworks and tools to support automated testing.
- Ensure comprehensive test coverage by writing and executing test cases for new and existing features.
- Perform functional, regression, performance and compatibility testing of web and mobile applications.
- Identify, document, and track software defects and inconsistencies using Jira or similar bug tracking tool.
- Collaborate with developers and product managers to understand product requirements and translate them into test plans and test cases.
- Integrate automated tests into CI/CD pipelines to ensure continuous testing and faster release cycles using tools like Jenkins, Gitlab.
- Work with DevOps teams to ensure smooth and efficient build and deployment processes.
- Advocate for and implement best practices in test automation and software quality.
- Work closely with cross-functional teams, including developers, product managers, and UX/UI designers, to ensure high-quality deliverables.
- Provide technical guidance and mentorship to junior SDETs and QA team members.

What We're Looking For:
- Bachelor's degree in Computer Science, Engineering, or related field, or equivalent practical experience.
- 6+ Years proven experience as an SDET or similar role with a focus on web and mobile front-end development.

- Strong experience with web front-end technologies (HTML, CSS, Java, JavaScript, React, Angular, or Vue.js).
- Extensive experience with Flutter framework for mobile application development.
- Experience working in version control tools such as Jenkins, Bitbucket, Gitlab
- Familiar with Testing lifecycle in Agile / Scrum projects, Defect Management lifecycle.
- Hands-on experience with Java concepts like Array and Collections.
- Hands-on experience with Linux, Windows, and/or mobile devices.
- Experience with Test processes, open source test frameworks, test design strategies, writing test cases, and automating tests in Java with frameworks like JUnit/TestNG, Selenium, and BrowserStack is preferred.
- Experience with tools & applications such as JIRA, Confluence, BitBucket, Git and Artifactory/Maven.
- Good understanding of Postman & REST APIs.
- Strong analytical and problem-solving skills.
- Excellent communication and teamwork abilities.
- Detail-oriented and committed to delivering high-quality software.
- Fluent in English

Preferred Qualifications:
- Experience with cloud platforms such as AWS, Azure, or Google Cloud.
- Knowledge of containerization and orchestration tools like Docker and Kubernetes.
- Experience with Web & Mobile testing tools and methodologies.
- Previous experience with Crypto Domain is a plus.

Compensation and Benefits
- Competitive Salary Range of USD $100,000 - $140,000
- 100% Remote - work from the comfort of your home
- Comprehensive health benefits package including options for 100% company-paid health, dental, vision, and life
- A diverse offering of supplemental insurance
- Generous Time Off, Parental Leave, & Paid Volunteer Hours
- Paid Holidays
- Stock Options (US/Canada)
- Great people!
